Ethics Commitment and Conflict of Interest Form*

The "Ethical Commitment and Conflict of Interest Disclosure" form is a formal statement submitted by the author(s) regarding the submission and publication of their scholarly work in the journal "……..……..". Through this statement, the authors affirm their adherence to the principles of publication ethics, intellectual property rights (Copyright), and transparency in Conflict of Interest (Conflict of Interest). This commitment is designed to safeguard research integrity, build trust in the publishing process, and inform readers about the production and presentation of the article. It also includes the mandatory disclosure regarding the use or non-use of Artificial Intelligence (AI) tools.t

1- The corresponding author, on behalf of all authors, completes and signs this worksheet and confirms the scientific authenticity of the article's content. The article is the result of the research activities of the corresponding author and his colleagues, and the rights of all individuals who participated in the research in any way have been respected.
2- The scientific, legal and ethical responsibility for the content of the article, including the accuracy and precision of the material, lies with all authors, and the journal is not responsible in this regard.
3- The responsibility for correctly entering the names and details of the authors lies solely with the corresponding author; all correspondence of the journal will be conducted exclusively with the corresponding author.
4- The order of authors and their characteristics are determined solely based on the article profile information in the system and the final approval of the editorial board and cannot be changed after the article is submitted.
5- The authors confirm that any plagiarism, falsification or manipulation of data, research misconduct, simultaneous submission or duplicate publication has been avoided in the preparation and submission of the article.
6- This article has not been previously published in any other scientific journal or media and has not been simultaneously submitted for review to another journal.
7- In the event of a request to withdraw the article after the start of the review process, the corresponding author is obligated to pay the costs incurred in the review process as announced by the journal office.
8- If the article is the result of a research plan, thesis, dissertation or project supported by an organization or scientific institution, the corresponding author is obligated to clearly declare the financial or credit support in the article and this commitment letter.
9- The authors declare that there is no commercial, financial or personal interest affecting the content of the article and that no payment has been received or paid for the presentation of this work; unless otherwise explicitly disclosed in this commitment letter.
10- In the process of conducting research and writing the article, all current laws and regulations of the country, the principles of international research ethics, the rights of subjects, organizations and institutions, the rights of authors and authors, the guidelines for research violations of the Ministry of Science, Research and Technology, and the university's code of ethics have been observed.
11- The authors grant the journal all rights necessary for publishing, republishing, and distributing the article. The journal is authorized to publish and distribute the article with the authors' names mentioned, in an Open Access format, without time or location restrictions.
12- A valid academic email address and ORCID ID are required for all authors.
13- Compliance with the principles of scientific writing and the criteria stated in the journal's "Guide to Writing and Submitting Articles" is mandatory.

Article and Author Details:

1. **Article Title**: ……..……
2. **The article is extracted from research plan, thesis, dissertation, etc.** **Yes** ☐ **No** ☐

Research plan features:
Title: ----------
Sponsor: ----------
Time of contract: ----------

Thesis/ Dissertation features:
Title: ----------
Name of university or department: ----------
Year of oral exam: ---------- Name of advisors: ---------- Name of readers: ----------
Other explanation: ----------

3. **Have the authors received financial or non-financial support from a third party (government, commercial, private foundation, etc.) for any part of this research?** **Yes** ☐ **No** ☐
Explain: ----------
4. **Do the authors own any patents, registrations, or intellectual property processes related to this article?**
Explain: ----------
5. **Is it possible for readers to access the data or supplementary information of the research?**
Explain: ----------
6. **Does this research involve human or animal studies that require obtaining a research ethics permit?**
Explain: ----------
7. **Has AI been used in this research?**
Explain: ----------
Name of the tool or system: ----------;
Type of use (e.g., ideation, language editing, data analysis, content generation, etc.): ----------;
Extent and scope of use: ----------

The responsible author hereby declares that if any violation of the above is proven, he/she will be responsible for the effects and consequences thereof, and the journal and the university will not be held responsible.
